Subject: Alert: Invites to Weekly OR Agriculture CZARA Technical Calls

Hi All,

In a few minutes, you will receive an invitation to participate in weekly calls through mid-July.

These calls will focus on the technical aspects of agriculture management measures in Oregon CZARA. You were selected as a key member of the team. If there is anyone who is not listed and should be included, please let Alan and me know.

If you are under cc, then these calls are optional—you are welcome to attend if the topic to be covered interests you.

Alan, who is leading this workgroup, will provide more background information.
